

SMA Solo MS

Decentral Hygiene System

The SMA Solo MS is a self-contained single hygiene mainstation, featuring an inbuilt booster delivering up to 27bar working pressure. This system is ideal for customers whose floorspace is at a premium, yet still require a complete hygiene system.

- Grundfos IE5+ pump technology provides class leading energy efficiency and longevity.
- Up to three chemicals can be dispensed through the single outlet, two of which can be foaming. Different titration levels can be set for each.
- Add up to eight further simultaneous operators to the system by connecting our Solo range of satellites.
- Clear, colour-coded symbols are used to denote each mode of operation, eliminating potential confusion in multi-lingual environments.
- Precision engineered and manufactured from food-grade stainless steel, the Solo Sat's robust construction ensures longevity in even the most demanding environments.
- The unit is simple to clean with no dirt or bug traps. The access panel can only be removed using tools, preventing unauthorised tampering.

Rinse

Sanitise

Detergent 1

Detergent 2

	MS-50-27	MS-60-27	MS-100-27	MS-120-27	MS-200-27	MS-270-27
Simultaneous users	1	2	3	4	6	9
